# BENTON COUNTY SNOWMOBILE CLUB

**Hello folks! Well, the snowmobiling fun is over for us for another season. Two lean winters have put the kibosh on any real funding we will receive going forward for quite awhile. If it doesn't snow, people just don't re-register their sleds. I get it, why spend the money when there's no snow?? The answer to that question is that the largest part of the funding we get is from registration sales. We also get 1% of the gasoline sales tax. That money is allocated for snowmobile clubs. With the advent of electric cars, even that money could start to dwindle significantly. So, PLEASE keep registering your sleds, even when it looks like there is going to be a lean winter. Also, they will ask which county you operate your snowmobile the most in. Please list that as BENTON county. Thank you for your much needed help on this matter. It looks like Arctic Cat was bought out by Argo. Will you be buying an Argo Cat snowmobile this next season? We held the trail down party on April 26. A big shout out to Kevin and Tony for cooking the main courses. I'm so full, I won't be eating this whole next week! And last but not least, please make the final meeting of the season, May 13th, 2025.**
